

BE A CHAMPION OF THE CIRCULAR ECONOMY

Charitable Recycling Australia champions the Circular Economy for a Sustainable Environment and an Equitable Society.

It drives and supports the collective network of 3,000+ charity and social enterprise retailers as leaders in reuse, recycling and circularity.

JOIN TODAY to be a part of this exciting movement and benefit from our collaborative efforts.

Through our membership, we help charitable reuse and recycling enterprises build capacity and scale their impact.

Charitable Recycling Australia members represent over 95% of the charitable reuse and recycling market. Our member base ranges from the large, well known national retailers right through to small single shop operators.

Current members include:

and dozens of other regional and local charity shop and social enterprise retailers.

Charitable Recycling Australia provides the support, advice and advocacy charitable reuse and recycling enterprises need to thrive.

We work with member enterprises to achieve collective objectives through:

Impact Measurement

All of our activities are led by data. We measure the social, environmental and economic benefits of the charitable second-hand economy and our members' contributions to it in order to build a clear business case for ongoing governmental and community support.

Advocacy

We encourage all levels of government to promote reuse, fund recycling innovation and reduce charitable costs in order to improve circular economy outcomes for our members which, ultimately, increases their social and environmental impact.

Capacity Building

We help our members do what they do, better, by providing resources, tools and advice on becoming more innovative and progressive reusers, recyclers and retailers. This, in turn, empowers them to become key drivers and accelerators of the circular economy.

Education

We educate and inspire Australians to choose reuse as a simple, cost effective way by which they can purchase quality items while also reducing their environmental footprint and enabling social good in their community.

Our membership delivers real returns to the reuse and recycling enterprises in our network.

WASTE LEVY PROTECTION \$5 million in waste levy support

Charitable Recycling Australia's successful ongoing advocacy has helped to facilitate \$5 million in waste levy support for the sector, across all six states through waste levy exemptions, rebates and financial relief. *Charitable Recycling Australia* has directly influenced five state governments on increased support, which means more funds for members to go to mission causes and improved environmental outcomes.

NATIONAL MEDIA RELATIONS positive media coverage

Charitable Recycling Australia protects your brand by acting as your official spokesperson whenever you need distance from contentious media coverage, including illegal dumping. Our media expertise also accelerates positive media coverage for the sector, including responsible donations. *Charitable Recycling Australia* has represented members on ABC News Breakfast, A Current Affair, Today Tonight, The Drum, ABC News, 7 News, 9 News and dozens of print, radio and online media.

ILLEGAL DUMPING 3 point plan

Charitable Recycling Australia's 3-point plan to alleviate illegal dumping includes calls for government support on security infrastructure, resource recovery grants and consumer education.

RESPONSIBLE DONATING

if you wouldn't give it to a friend,
don't give it to us.

Charitable Recycling Australia funds responsible donating campaigns in specific states and nationally using radio and social media channels, to encourage consumers to donate responsibly. In partnership with State Governments, it has helped create responsible donating videos and collateral, and has embedded the message If you wouldn't give it to a friend, don't give it to us which is gaining more and more traction. More responsible donating initiatives and in plan for this year.

NATIONAL REUSE POLICY ADVOCACY accelerating reuse

Charitable Recycling Australia is advocating for Reuse to be integrated into all Federal and State Government Circular Economy policies. The sector needs and deserves direct government support with specific grants to accelerate reuse, and the preparation for reuse. It is also advocating for reuse targets, which will then necessitate policy interventions and government funding.

NATIONAL REUSE MEASUREMENT GUIDELINES

quantifying
environmental, social & economic benefits

In collaboration with *Charitable Recycling Australia*, Monash University has developed an Australian first initiative in the *National Reuse Measurement Guidelines* which will enable the measurement of reuse through POS, and quantify the environmental, social and economic benefits. The first step is to gain funding from government to populate this data, to demonstrate the benefits of reuse, and how this will help governments meet their own targets.

STATE MEMBER MEETINGS

supportive
member community

Benefit from connecting with all your peers at the State Member Meetings that run every quarter in NSW, QLD, SA, TAS, VIC and WA. Discuss challenges and opportunities in a highly collaborative, collective and supportive member community, learn how your peers tackled issues you are facing, and contribute to the *Charitable Recycling Australia* strategic agenda.

HIGHEST AND BEST USE CODESIGN PARTNERSHIP

collaborating
with government

Charitable Recycling Australia is collaborating with leading cross-sector partners to collectively advocate for and codesign policy for Highest and Best Use, which includes first use, reuse and repair. These three areas sit at the top of the Resource and Waste Hierarchy, and collectively present all governments with a powerful alliance leading the transition to a Circular Economy by 2030.

ANNUAL CONFERENCE

learn, connect & be inspired

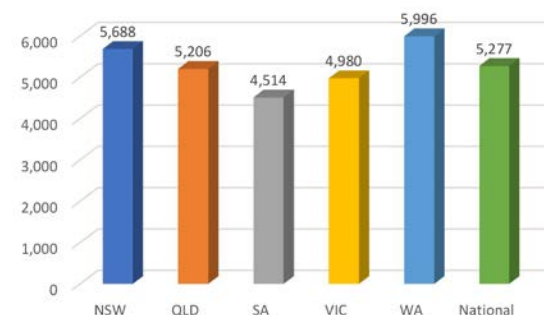

Attend the annual conference at discounted member delegate prices, to learn, connect and be inspired on the future of charitable retail and reuse. The conferences have been sold out each year since 2018 showing how popular they are. Members can also get recordings of all the sessions to use as staff training and capacity building throughout the year.

RETAIL BENCHMARKING

improving retail performance

Understand how you are performing against average charity shop retail benchmarks, to find out areas you can improve your retail performance – which means more income for your mission. nationally and in your state. Compare your revenue per shop, average transaction value, income per square metre, average items per sale and more. Compare nationally, by state, by shops your size, by metro v regional or even staff v volunteer run shops. This complimentary resource alone returns your membership investment.

CLOTHING REUSE EXPORT ACCREDITATION SCHEME

instilling confidence

Charitable Recycling Australia's Clothing Reuse Export Accreditation Scheme is a credible and practical accreditation process to provide a standard for the export of second-hand clothing for reuse, designed provide confidence to government, stakeholders and consumers that the clothes being donated to charities are being managed in a responsible way.

CORPORATE PARTNER PROGRAM

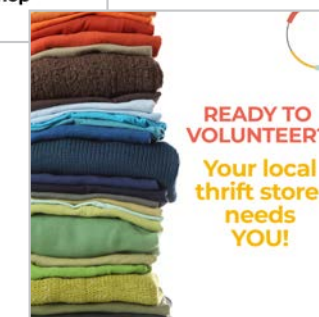

special member benefits

Gain access to a range of services and special offers from corporate partners, to improve your retail performance and resource management. Partner categories include Retail Services, Resource Management and eCommerce/Technology, and include some of the best names serving the sector.

NATIONAL VOLUNTEER DRIVE

awareness generation

Charitable Recycling Australia has funded a \$50,000 campaign in 2023 to help the sector to rebuild volunteer numbers, generate awareness of contemporary opportunities of volunteering, attract new, younger demographics to the sector, and articulate what best practice volunteering looks like.

NATIONAL REUSE CAMPAIGN

promoting

reuse in Australia

Charitable Recycling Australia has funded a \$45,000 campaign in 2023 to promote reuse in Australia, by encouraging consumers to shop in charity shops, and government stakeholders to embrace and support the charitable reuse sector.

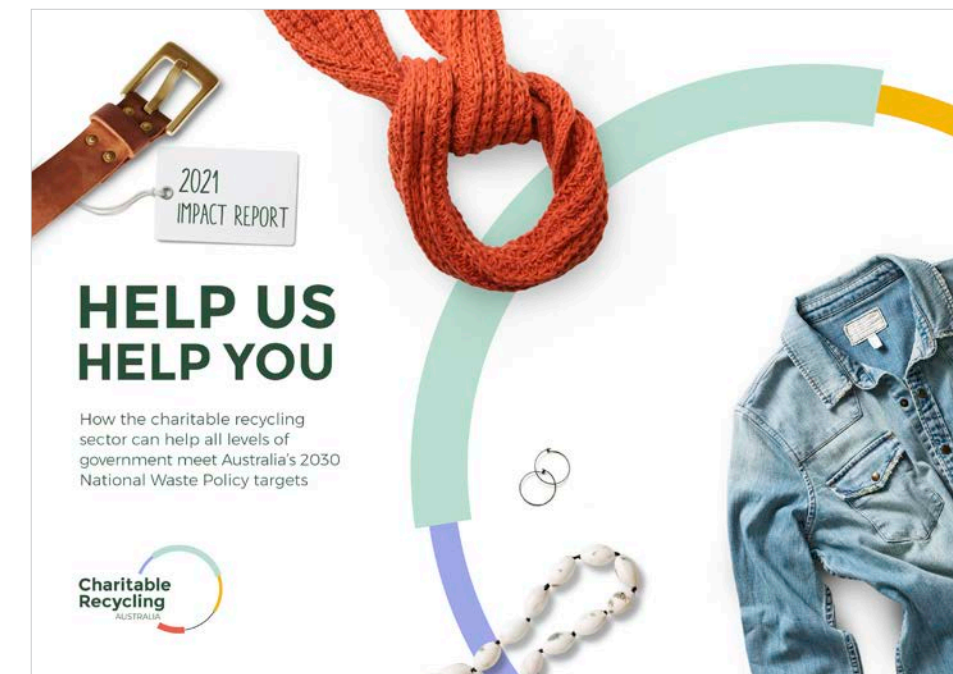

REUSE IMPACT CALCULATOR

measuring

environmental impact

Embed the *Reuse Impact Calculator* into your shops and your sales inventory so you can demonstrate the CO2 emission savings by shop or your entire organisation, for every T-shirt, garment, toy, homewares item, toy or piece of furniture you sell. Promote it to your customers and donors so they can work out the environmental impact they are having when they shop with you, or donate their pre-loved items.

CHARITABLE IMPACT STUDY

leveraging

the data

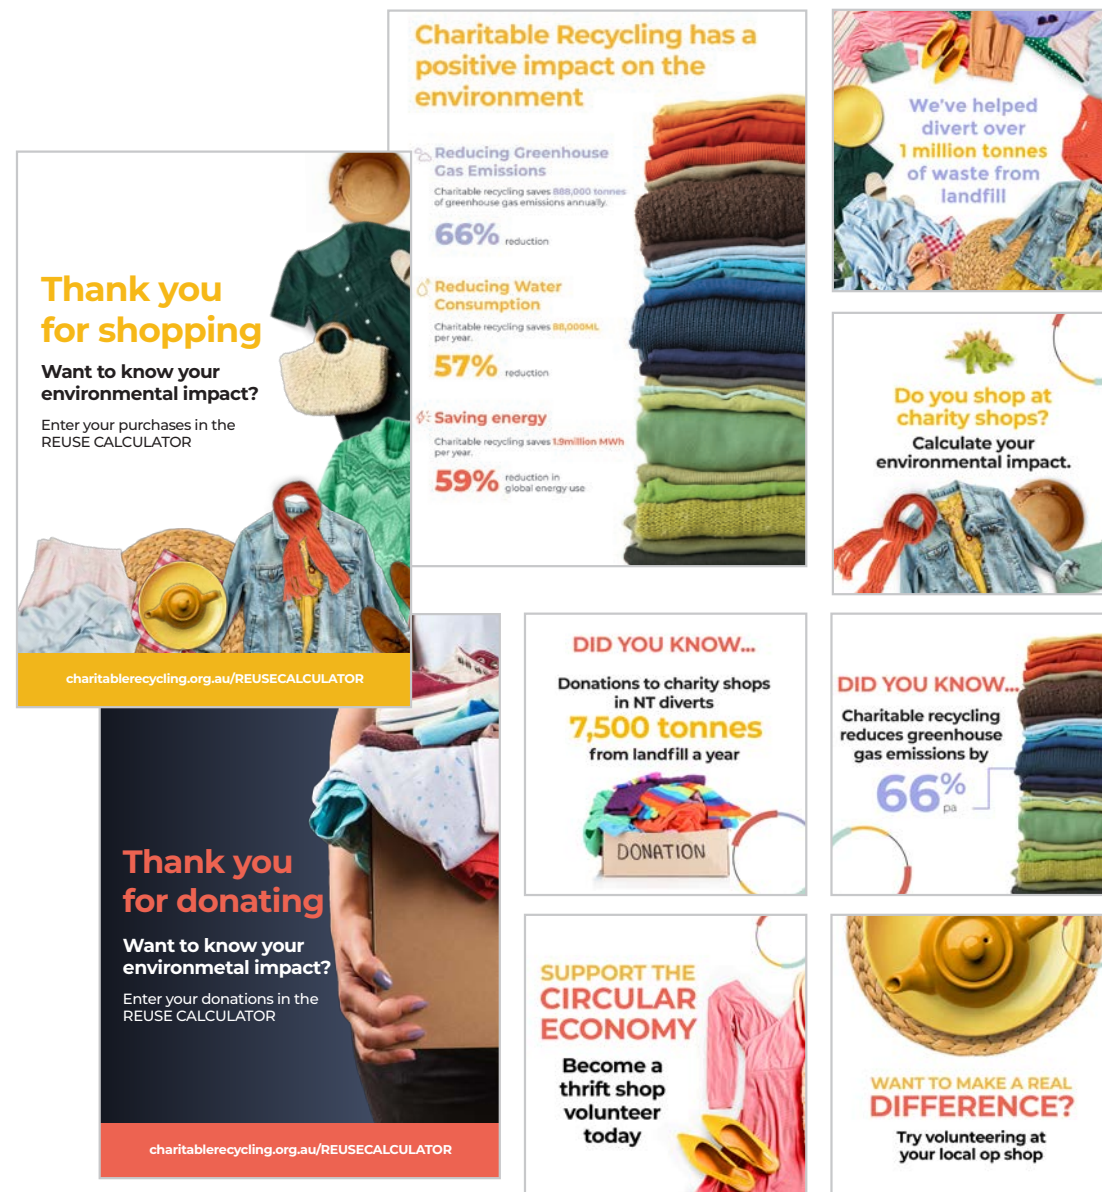

Leverage all the data from the *Charitable Impact Study*, conducted by MRA Consulting to quantify the environmental, social and economic benefits of our sector. Use the data to engage your customers, donors and stakeholders including councils.
